Furnace Oil Customers

Any new customer that heats with OIL is now required to have a comprehensive inspection of their heating system. This inspection report must be on file at MacDonnell Fuels before your first furnace oil delivery. This inspection must be performed by an "OIL Burner Technician" and there will be a cost charged to the customer. This inspection will have an expiry date. It is also required by law that all heating systems be inspected and serviced annually. MacDonnell Fuels Ltd. will be happy to make the necessary arrangements if you contact our office.
